LUNA™ 3-Channel Slides
L72021 (1 box of 50 slides)
L72022 (10 boxes of 50 slides)
L72023 (10 boxes of 50 slides
Sterile - gamma-irradiated)

Storage
Room temperature

Product Description
Materials: PMMA
Dimensions (W x D x H): 75 mm x 25 mm x 2.1 mm
Number of chambers: 3 chambers
Chamber volume: 10 µL

LUNA™ 3-Channel Slides are individually wrapped disposable slides used with the LUNA-FX7™ Automated Cell Counter.

- Sample throughput: Up to 3 samples
- Sample loading volume: 10 µL/chamber
- Maximum analysis volume: 1.3 µL/chamber

Directions for Use
1. Prepare sample to count with or without staining dye.
2. Tear off the top of the wrapping and take out the slide.
3. Load 10 µL of sample to each chamber.
4. Apply the slide to the LUNA-FX7™ Automated Cell Counter.
5. There are three chambers to use for three sample loading.

Product Care
- Do not press down a slide with or without wrapping.
- When handling, hold the edges of the wrapping, not the slide itself.
- Widen the opening and gently remove the slide to prevent possible scratches.
- Avoid fingerprints on the chamber area.
- Do not load any solvents buffer for counting.
