LUNA-BX7™

Automated Cell Counter

Introducing the LUNA-BX7™:

High-performance, affordable cell counting focused on brightfield optics.

Retaining core features of the flagship LUNA-FX7™, it offers advanced performance tailored for trypan blue and other viable stains.

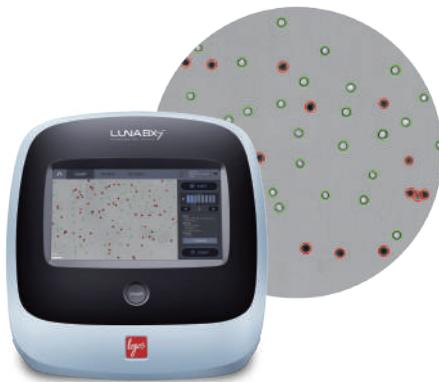

Designed based on customer feedback, the LUNA-BX7™ delivers flexibility, reliability, and unmatched value in automated cell counting.

High-Performance Cell Counting

Experience unparalleled precision and accuracy in cell counting with the LUNA-BX7™.

The LUNA-BX7™ combines advanced high-resolution imaging capabilities with an enhanced counting volume by analyzing multiple fields of view for every count.

Additionally, our state-of-the-art cell counting algorithm, powered by machine learning, further elevates the accuracy and reliability of your results, ensuring more accurate counts.

Higher Throughput and Versatile Slide Options

The LUNA BX7™ is designed to be compatible with several slide options, from single chamber to 8-chamber. Our 8-chamber slide allows you to quickly count a large number of samples and is perfectly compatible with a multi-channel pipette for increased ease of use. For applications involving limited, precious samples, the 1-channel slide maximizes the counting volume while ensuring accurate results. The 3-chamber slide provides the ability to combine and average replicate results. Whether your applications is single cell analysis, clinical, or production in a GMP environment, the LUNA-BX7™ is an ideal choice.

Eco-Friendly Reusable Slides

Incorporating our eco-friendly reusable slide will help minimize unnecessary waste in your lab.

A reusable slide not only reduces your environmental footprint; it helps contribute to a more sustainable approach to scientific research.

Compatible slides	LUNA™ 1-Channel Slides	LUNA™ Cell Counting Slides	LUNA™ 3-Channel Slides	LUNA™ 8-Channel Slides	LUNA™ Reusableslide
Sample throughput	1 sample	Up to 2 samples	Up to 3 samples	Up to 8 samples	1 sample
Sample loading volume	50 µL	10 µL / chamber	10 µL / chamber	10 µL / chamber	10 µL
Maximum analysis volume	5.1 µL	1.3 µL / chamber	1.3 µL / chamber	0.5 µL / chamber	1.3 µL

All-in-One Performance and Integrated Connectivity

Experience seamless operation with the LUNA-BX7™'s integrated on-board analysis and intuitive, user-friendly interface. This powerful system is complemented by effortless data transfer capabilities, allowing you to easily transfer results through Ethernet and Wi-Fi connectivity.

The integrated connectivity of the LUNA-BX7™ enhances your workflow efficiency while protecting data security, making your cell counting processes smoother and more effective.

IQOQ and 21 CFR Part 11 Ready

Ensure full compliance and validation with the optional Qualification and Operational (IQ/OQ) protocol installation. In addition, CountWire™ software is an excellent add-on for labs operating under GMP regulations requiring 21 CFR Part 11 compliance, giving you the confidence you need to maintain regulatory standards. These features can be installed when the system is purchased or later as protocols change or your budget allows.

Quality Control

Our pre-printed validation slide and built-in QC software ensure reliability and accuracy of the LUNA-FX7™. The QC mode allows daily performance checks to verify and maintain the instrument's precision and accuracy.

Together, the validation slide and built-in QC mode provide the ultimate solution for maintaining the highest standards in your cell counting processes.

Specifications

LUNA-BX7™ Automated Cell Counter, L90001		LUNA-BX7™ Automated Cell Counter, Bioprocess L90002
		
Onboard storage	250 GB	1 TB
Software	Standard software	Bioprocess software
Cell diameter range	Detectable: 1-90 µm, optimal: 3-60 µm	
Optics	Brightfield	
Focusing	Auto Focus / Manual Focus	
Display	7" Capacitive touch screen LCD	
Data format	PDF, CSV, TIFF	
Data export	USB, WiFi, Ethernet	
Printer	External printer (optional)	
21 CFR Part 11	CountWire™ software (optional)	
User management	CountWire™ software (optional)	
IQ/OQ	Yes (optional)	Yes
Dimensions	245 x 280 x 240 mm	
Weight	4.5 kg
